The Better Business Appeal - Get involved

FUTURESTARS

Encouraging values and inspiring young people.

Futurestars is an exciting education-through-sports programme that offers weekly sports coaching sessions, run by qualified coaches, to underprivileged children in Tema, Ghana, and Lomé, Togo. 4,000 children each week benefit from free coaching in football, netball, athletics and PE as well as the relevant sports kit and equipment; and all five partner schools in Tema, report increased attendance and pupil engagement.

Futurestars also funds a much-needed refurbishment programme at the five partner schools in Ghana. The Futurestars project is totally funded by our donors and we are delighted with the support they provide - if this might be of interest to you please get in touch [here](#).

DIRECTOR'S WELCOME "Attendance is up. Truancy is down"

futurestarscharity.org.uk

PLEASE DONATE A SEAT TO HELP US BUY A BUS

FUTURESTARS ENGAGES WITH OVER 4,000 YOUNG PEOPLE EVERY WEEK IN GHANA AND TOGO. WITH TWO BUSES, WE'LL BE ABLE TO DO MORE AND GO FURTHER.

The Futurestars Charity Project is an exciting education-through-sports programme, working with schools in both Ghana and Togo. We deliver physical education and sports coaching, as well as assisting in the refurbishment of schools, so as to create safe and secure learning environments.

Futurestars currently reaches 4,000 children each week through our football and netball coaching sessions. To further encourage and raise aspirations, we are keen for pupils to participate in sporting matches with other schools. Having a minibus in both Ghana and Togo will enable us to transport students safely and mean that activities need not be limited by locality. Students will also be able to attend events such as sporting festivals, for example, where previously we would have had to hire minibuses.

The children who attend the Futurestars schools come from some of the poorest communities. Previously, they had no access to physical education or sports at school. We organise pre and after school clubs for both boys and girls to help in developing their sports skills. Sport is also used as an incentive to encourage attendance at core curricular lessons.

“Our long-term goal is to improve the life of every child who attends a Futurestars supported school.”
Simon Milton, Futurestars Director

HELP US TO FILL OUR 20 SEATER GHANA & TOGO MINI BUSES

PLEDGE £2K TO BUY TWO SEATS PLUS A TABLE AT OUR GALA DINNER

In celebration of the success of the campaign, we will be hosting a gala dinner as a thank you to all those who have supported us. Your donation will not only enable us to buy two minibuses, but will secure you a table of ten at the event, which will be held on Friday 11th October at Milsoms Kesgrave Hall.

question visibility. You've only got
a couple of steel tubes and this body-
work to protect from a side impact, and
the protection is nominal at best. But
if we go bombing through the trees
and any fears go out the window,
on motorcycles, buyers inherently
know that rewards come with risk.

Like the 2015 Polaris Slingshot,
this is a niche machine, little
sales. As we mentioned, the
difference from the Can-Am Spyder,
and riding experience is
different. Comparing the two
is senseless. The Can-Am Spyder
is a similarly styled machine,
but at the Geneva Motor Show in
2014, it was a four-wheeler instead
of a three-wheeler. Even though the KTM X-Bow
is a niche vehicle, Polaris
probably hopes it does as well for them.

WELCOME TO ISS CBR MAGAZINE + YOUR FESTIVAL PROGRAMME

Welcome to Craft Beer Rising London 2015. As we take over the Old Truman Brewery once again for our third year, we have grown to deliver what we believe is a bigger and better show than ever. We now have a festival app (head to craftbeerrising.co.uk to download) that'll give you the low-down on all your favourite brewers and allow you to vote for your top beers of the event. Festival highlights include several brewery launches, new drinks releases, and the UK debut of the five-strong New Zealand Craft Beer Collective. There will also be some fantastic talks in our Mash Tun area hosted by Melissa Cole, including chats with Celt Experience's Tom Newman on mead, a lager exclusive with master Austrian brewer Karl Trojan, plus Melissa's own food and beer matching. Then there's the music and food... Soul II Soul legend Jazzie B takes our headline spot supported throughout the weekend by Don Letts, The Doctor's Orders, Channel One and Andy Smith amidst a plethora of other musical talent. Food-wise there are lip-smackingly good offerings from the likes of Prairie Fire BBQ and Dosa Deli. Last, but certainly not least, we're giving you this magazine (incorporating the event programme) so you can enjoy some great articles and re-live the fun of Craft Beer Rising when you get home! Thank you for coming and... cheers! Enjoy!

electricity while stilling with a
to efficiently produce power
power generation and trans-
ing and heating. In addition,
AAM recently overhauled its
6 MW steam turbine genera-
ing total power generation ca-
to 50 MW. The overall cost
configured to remain fully op-
during a regional power outage
ing critical campus functions
time without interruption. The
firm's ability to operate indepen-
from the grid provides the firm
ability for a number of univer-
sity functions, including
facility, dormitories, and
hospital. With CIP as a main
strategy, Texas A&M's energy
energy management program
achieved a 45 percent reduc-
energy consumption per square
and \$162 million in cost avoid-
since 2002.

THE UNIVERSITY HAS
ACHIEVED A 45 PERCENT
REDUCTION IN ENERGY
CONSUMPTION PER SQUARE
FOOT AND \$162 MILLION IN
COST AVOIDANCE SINCE 2002.

In addition to operating and
maintaining CIP and low utility
plants (four on campus and one
remote), the UES team manages
remote control and HVAC opera-
tion in the 19 million gross sq ft of
university facilities. UES man-
aging environmental conditions
using a state-of-the-art building
automation system. This compre-
hensive approach to energy manage-
ment made it possible to achieve the
standing results.

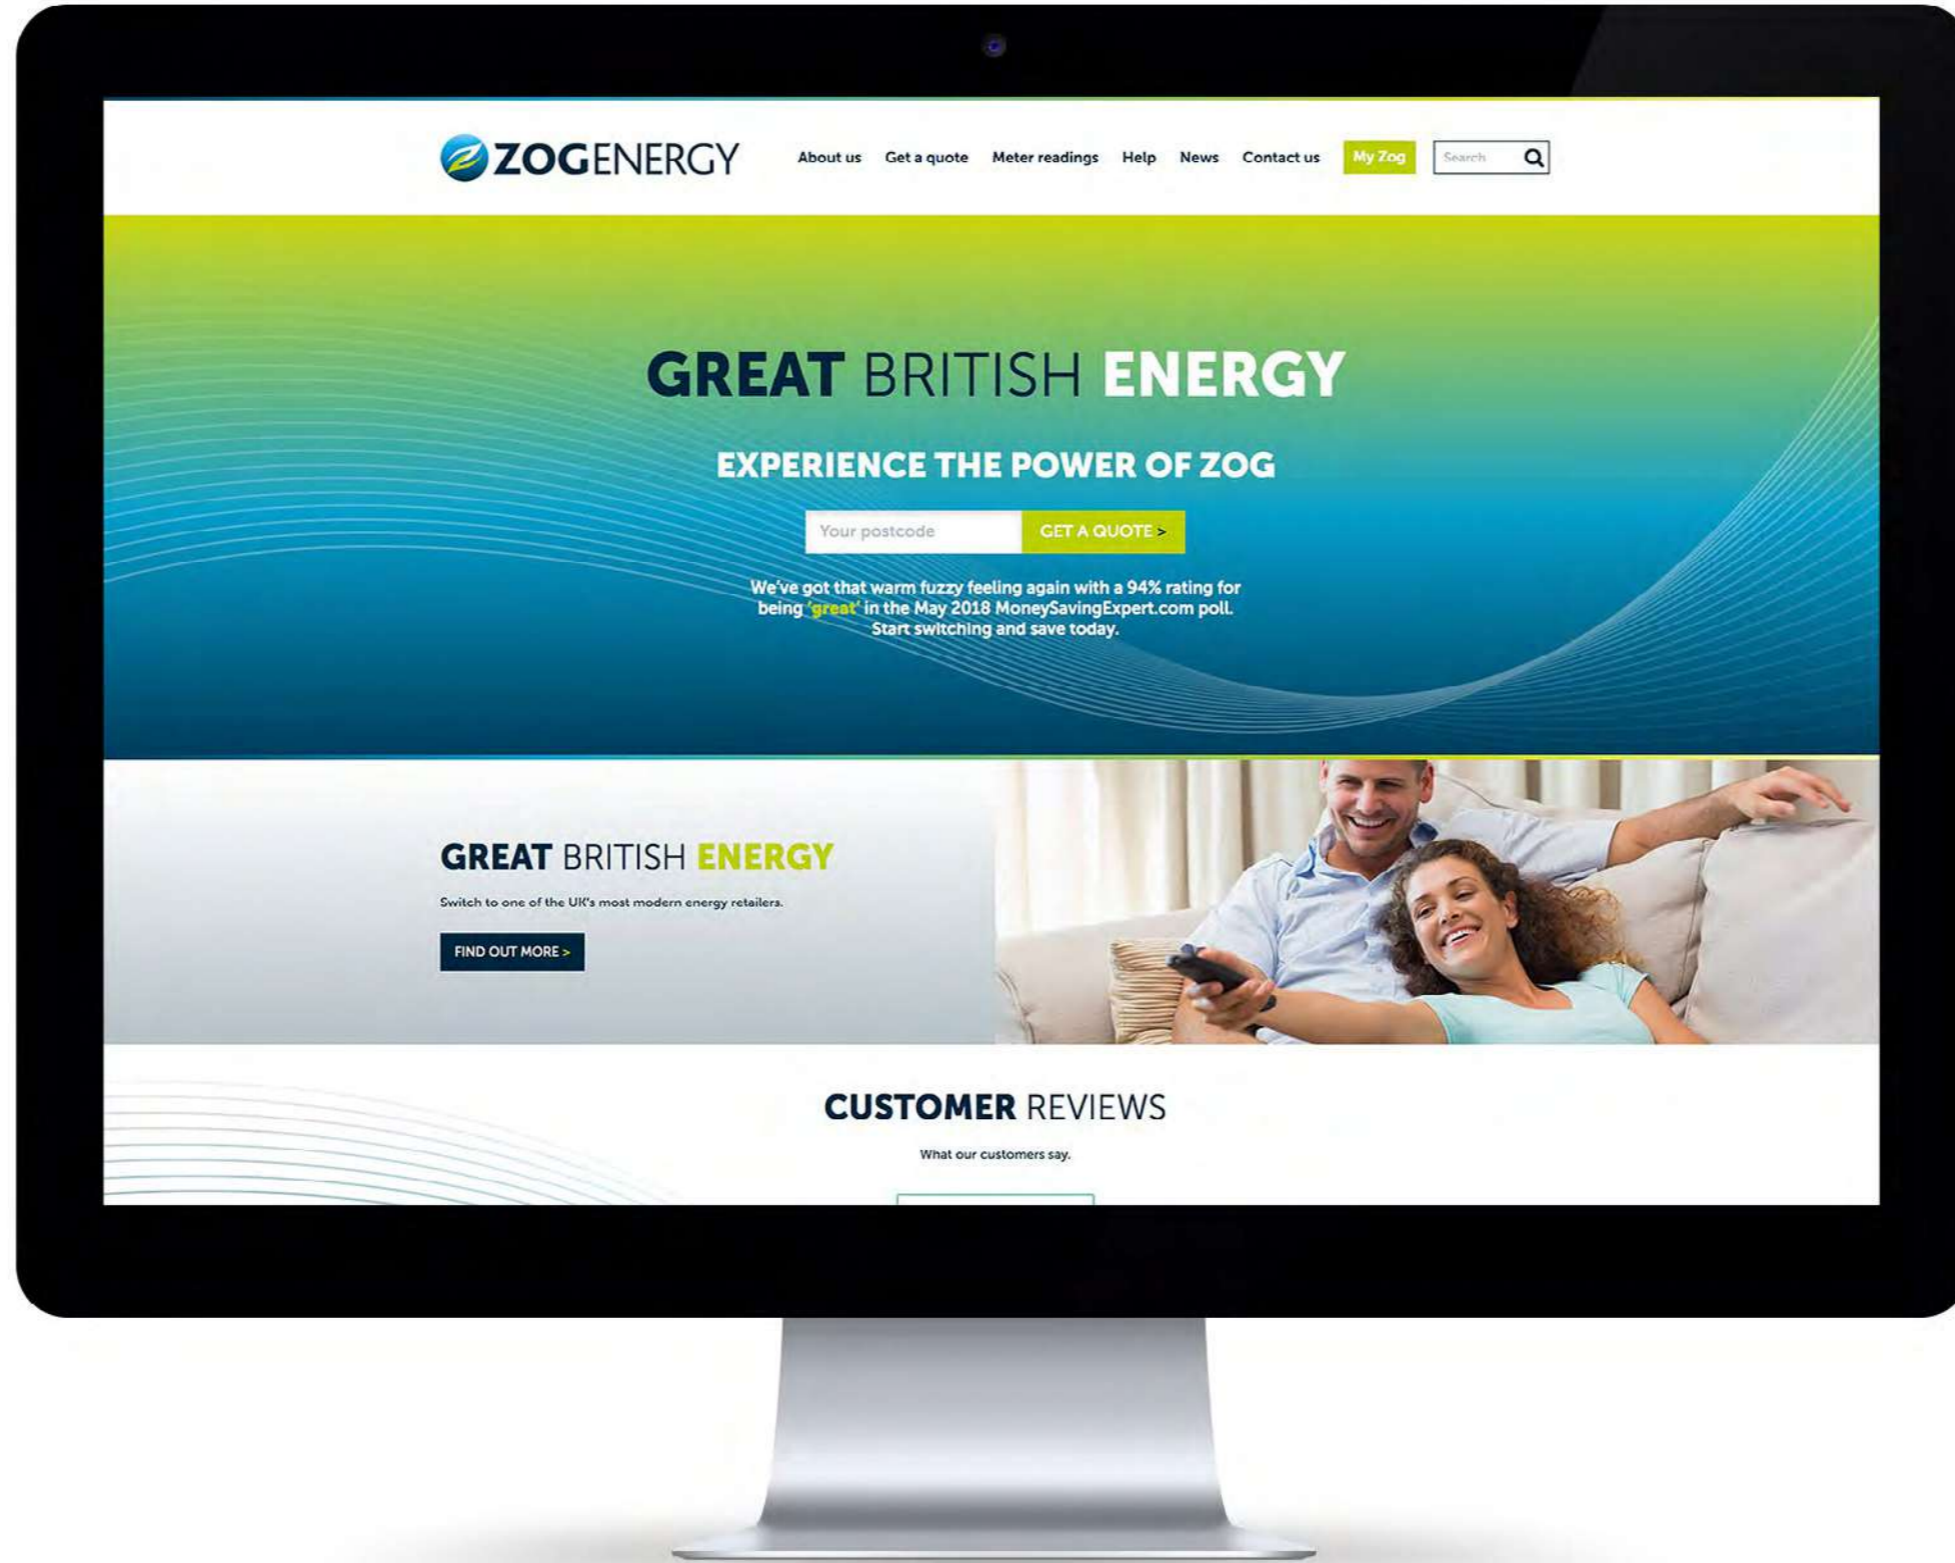

LEGACY CIP SYSTEM
Texas A&M's legacy CIP system
installed at the Central Utility Plant
consisted of a 1910-vintage 15 MW
General Electric Frame 5 gas turbine
generator coupled with a 60,000-hp
heat recovery steam generator (HRSG).

Innovating hospitality displays, immersing guests into hotel brands

As guests expect ever more from their hotel experiences, the professional TVs and digital signage solutions specified for hospitality require an innovative new approach. Philips Professional Display Solutions is leading the market to introduce display technologies for the future. Bringing tomorrow's technology into play today.

In his speech at the Master Inholder's Conference in January, Ian Miller, Senior Lecturer at Ecole hôtelière de Lausanne and expert in both hospitality and information technology, delivered a countdown of the top tech trends that will impact hotels this year. High on his list, guests' own content and Chromecast were hailed as must-have capabilities. At ISE in February, Philips Professional Display Solutions launched their new MediaSuite Pro TV range – Google-certified and including Chromecast built-in – revolutionising guests' in-room experiences.

What's more, with unique software solutions that deliver consistent brand messaging throughout the hotel situation, professional displays from Philips offer an engaging solution for boutique hotels through to hospitality groups.

Warm welcome - a new generation of hospitality TVs

Offering a range to cater for any situation, Philips Professional Display Solutions draws upon a rich heritage in innovating technology to ensure its hospitality TVs delight and engage. With features that include AmbientLight for a scene setting immersive viewing experience and up to 4K UHD resolution, the range is powered by Android for a fast, versatile and secure performance and unmatched flexibility. And now the company is leading the industry into a new era, with MediaSuite including Chromecast built-in.

This exciting new MediaSuite Pro TV range delivers new and unparalleled levels of performance, customisation and flexibility. All ensuring businesses can provide the very latest service and infotainment experience. With sizes that start from 32" and move through to 55" models, MediaSuite features direct LED back lights and high-quality panels to offer superior contrast, black level, brightness and colour saturation. Ensuring outstanding picture performance.

Even better, though, are MediaSuite's brand new to Pro TV features. Features that are at the cutting edge of technology. Together with Chromecast built-in, MediaSuite is Google-certified. This brings added benefits that include direct access to the Google Play Store – delivering thousands of compatible Apps, including major services such as YouTube, as well as local news, weather and traffic information.

Anthony Tizzard, Philips Professional Display Solutions Business Manager EMEA, said: "MediaSuite is the first Pro TV in the marketplace with built-in Chromecast. This is a truly exciting development for installers, hoteliers and their guests, providing a straightforward connection between the in-room TV and any compatible device, with no time consuming login or app download required."

Chromecast offers full and secure access to the content on guests' own devices, allowing instant casting onto the in-room TV in up to 4K resolution.

Extending the brand experience with engaging digital signage

Extending a memorable brand experience beyond the reception desk and guest rooms, Philips professional displays help every hospitality environment to run smoothly and seamlessly together.

From touchscreens at check-in – including the newly launched 24" multi-touch display, through stylish digital signage in restaurants and bars, to flexible and easily configured bezel free videowalls for larger wall spaces, Philips professional displays are powered by Android, allowing the installation of web apps directly onto the display and bringing a tailored experience to every audience.

New for 2019, Android 7 has been integrated throughout a new range of D-Line models. This built-in Android OS offers faster, more secure connectivity and unparalleled flexibility, enabling hoteliers with fast and seamless deployment of scheduled content.

All Philips professional displays come with a three-year warranty as standard, with all after sales support managed locally. Delivering the ideal end to end solution for the hospitality marketplace.

Move into the new generation of hospitality displays with Philips Professional Display Solutions. www.philips.co.uk/p-m-pr/professionaldisplays/hospitality

Take CMND and deliver a heightened hospitality experience

Networked content management made easy

Beautiful displays and stunning signage are only as good as the systems that manage them. Unique to Philips Professional Display Solutions, CMND is made up of a range of powerful tools that work together seamlessly. Making content management intuitive and straightforward, delivering impactful results for brand building and business.

CMND & Control

CMND & Control gives the ability to install, maintain, upgrade, configure, and control all Philips professional displays – across any site, from one location. Deploy content and updates remotely. Deliver new channels and languages to each guest. Update firmware and analyse statistics easily.

CMND & Create

From room service menus to navigation for stadium events, CMND & Create enables the professional design and customisation of stunning presentations for guests. What's more, once created, they're easily shared directly from the CMND hub to relevant displays across the network.

CMND & Check In

Transform guests' experiences with CMND & Check In, combining a tailored service with total efficiency. Deliver personalised messages, express check out and transparent costing via the in-room TV, and enable guests to set their own preferences, including language and channel line-up.

Evolving technology. Engaging displays.

Introducing a new generation of hospitality TVs and digital signage.

In an era when hoteliers are looking to create the hotel experience of tomorrow, new features, technologies and future-proofed solutions are in high demand.

CONNECTING YOUR BUSINESS OUR VISION WORKING WITH US STRONGER TOGETHER

Connecting with Daisy

In our fast moving digital era, businesses are demanding more than just telecoms from their business mobile supplier. They need IT products and services that work seamlessly with their communications tools and technology to deliver a competitive edge to their work.

product portfolio to include elements from the Daisy Group. To deliver partners and clients a better, more connected way of working across the supply chain.

"We're making a new range of fully-integrated digital telecoms available that can be either resold or in partnership with us, giving greater control"

"We're looking to complement our partners' offerings, taking their businesses forward with our own"

Answering this need, Daisy Distribution is a business proposition, as well as in its vision, its values and its strategy for the future.

Historically the mobile distribution arm of the Daisy Group, Daisy Distribution is growing up and reaching out, meeting the track and demand for a more joined up and synergistic approach to business connectivity, the company has extended its

"Adding to our portfolio of products, we're looking to complement our partners' offerings. This has given us a great opportunity to work closely with them to cement their relationships with their end customers, taking their businesses forward with their own," said Julien Parven, Marketing Director of Daisy Distribution.

Introducing 12 clear product areas into the mix, including voice and data, hosted telephony, cloud-based solutions and mobile, hosted telephony and broadband. Daisy Distribution is supporting its partners with a new and exciting end-to-end approach, creating a cohesive, rather than competitive, way of working.

to our partners and delivering solutions to cover a multitude of scenarios".

Recognising that not all partners will wish to take the same approach to their business, Daisy Distribution will also offer a unique approach to selling the products and services it offers.

This means that, should any partner feel unsure "reselling a particular product set, Daisy Distribution is on hand to assist, working directly with the end customer, while also introducing solutions and services provided by their products partner. This adds customer retention, while also enhancing loyalty to partners' brands.

CONNECTING YOUR BUSINESS WITH 12 DISTINCTIVE PRODUCT AREAS

SCHOOLS OUT GET MIDWICH IN

ADD A COMPETITIVE EDGE TO YOUR SUMMER INSTALLATIONS

The Summer term is in full swing, soon the schools will be out and it will be time for your education installations.

With a team of education specialists at hand, you can be assured that Midwich can offer you the best advice, products and deals in the market. We enjoy putting our expertise to your advantage, so we have put together a handy checklist designed to help you increase your margins and give you the competitive edge.

Midwich can help you secure the right products, as well as the cables, brackets and add-ons you need - all at great prices. Plus we can support you with storage, delivery and credit facilities to make sure your installers are a success.

Please give your account manager a call to put our expertise to your advantage or check out our fantastic education offers.

With best wishes

SCHOOLS OUT

GET MIDWICH IN

Put our expertise to your advantage. Use our handy checklist to increase your revenue and deliver an excellent install for your customers.

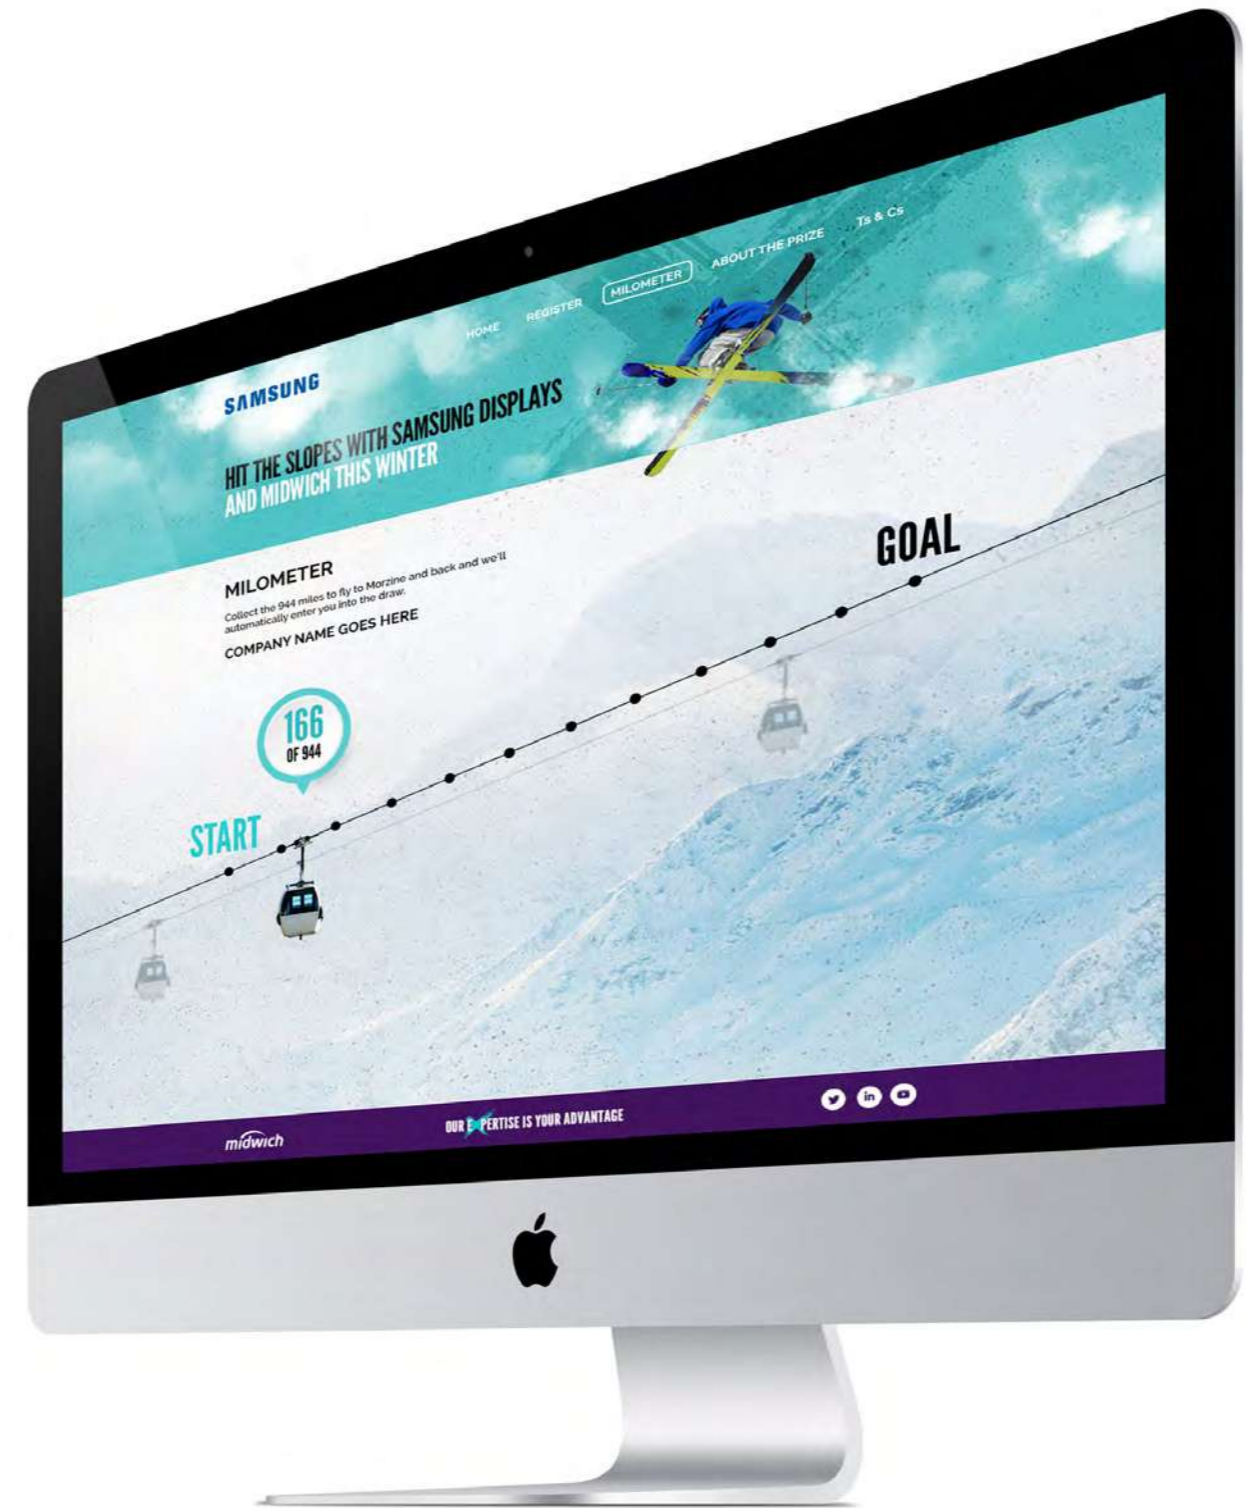

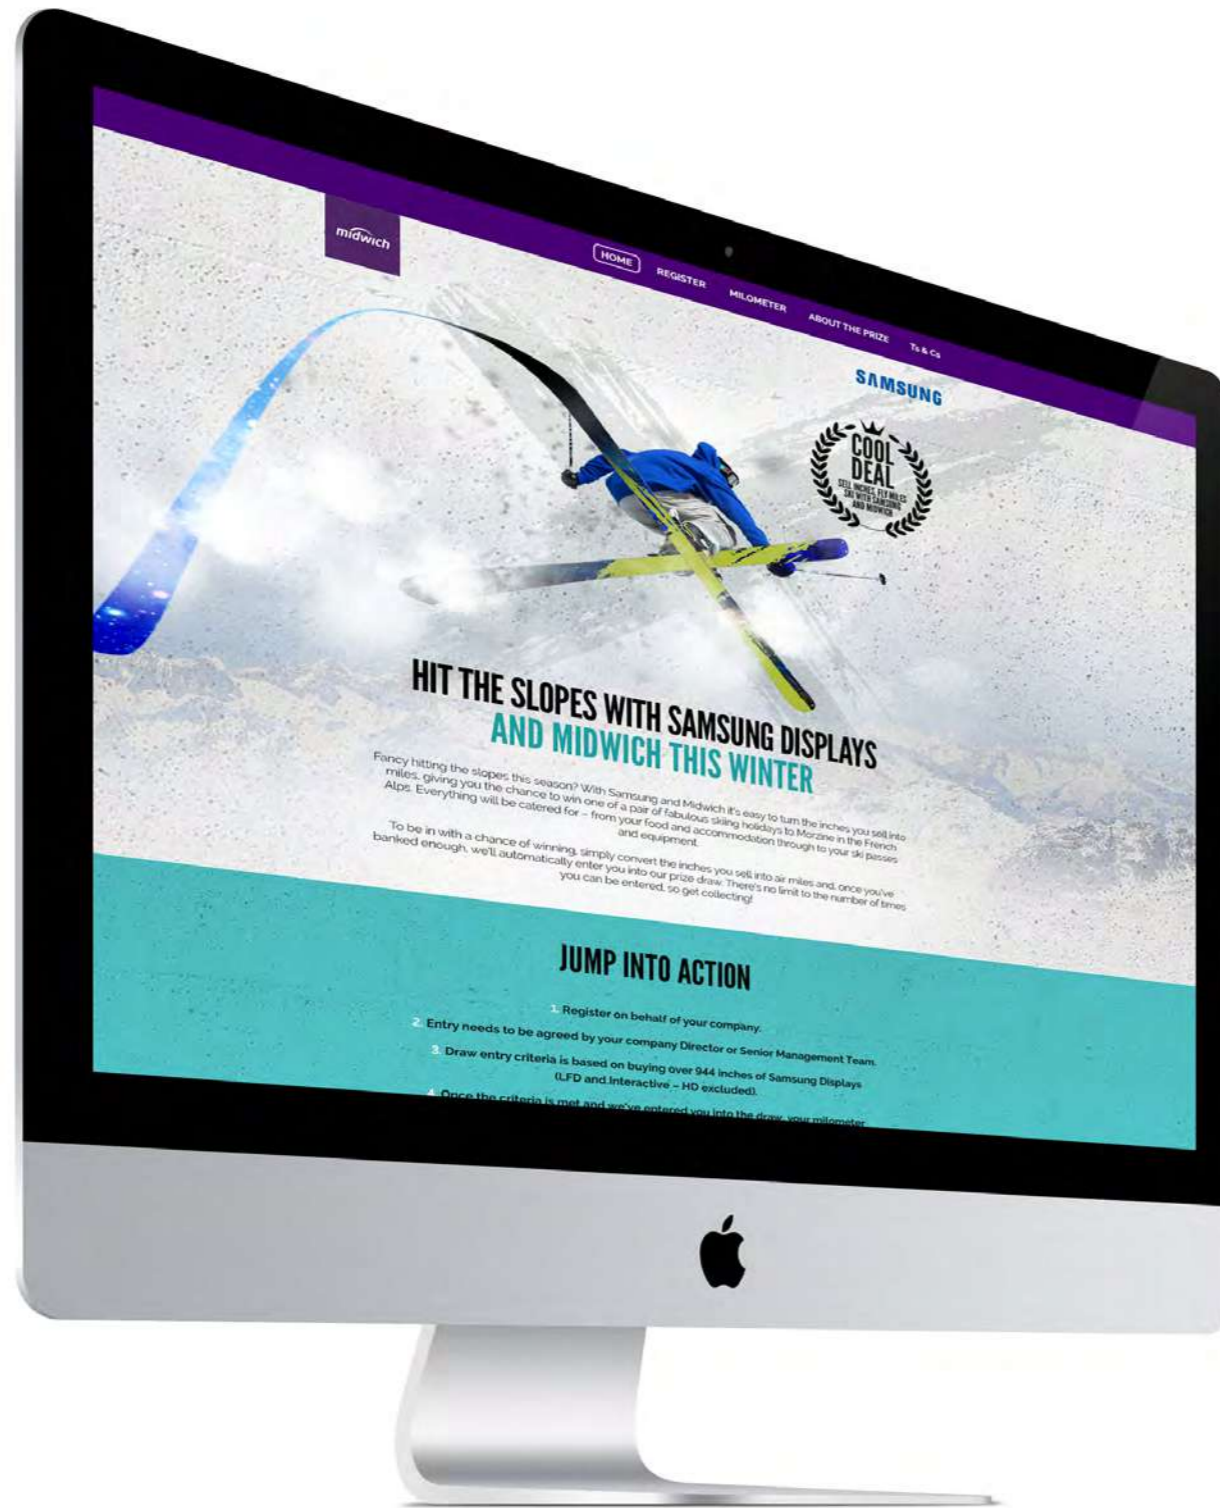

- 25,000 PRODUCTS**
With so many products available for education installs, make sure you contact our specialists for advice on which products they need, our customers' needs, the can they want, delivery needs and more.
- NEED CREDIT SUPPORT?**
Midwich can offer temporary increases on credit subject to approval to support your education installs, giving you more time to concentrate on growing your business, instead of worrying about cash flow.
- INCLUDING CABLES CAN BOOST YOUR MARGINS BY 25-30%**
Adding boards, trays, cables and projector screens to your installs will increase your revenue. Plus, offering your customers the whole solution helps lock them in to you.
- CONNECTIVITY IS KEY**
No large format screens come with cables. Make sure you don't get caught out when you are about to install equipment. Our team can recommend which accessories you'll need to complete the job.
- DELIVERING ON TIME**
Some projector screen manufacturers close during the summer, so don't delay. Order your equipment for summer installs in good time to ensure delivery.
- WORRIED ABOUT SPACE?**
We can help by offering drop-ship orders - holding your stock and shipping directly to your customers. We're flexible and can arrange delivery at a time and location to suit you.
- TAKE A LOAD OFF**
Touchscreens are delivered on a pallet so make sure someone is on site to help unload. You can remove the worry of making sure your deliveries go smoothly by discussing the details with us.
- NEED TO BE DISCREET?**
If you don't wish for your customers to know Midwich are involved, we can arrange for delivery notes to be plain labelled or to state your customer's details when items are delivered direct.
- DELIVERY CONTACT**
Make your delivery a success - DPD delivery drivers can alert your customer that their goods are on route. Ensure you pass our sales team a name and mobile number for someone to be on site ready to accept your order.

MAIL YOUR CUSTOMERS
If you would like us to create a checklist, branded with your logo, to help your customers get ahead with what they need to consider for their summer installs please contact marketing@midwich.com

TRANSFORMING THE GAMING EXPERIENCE

UP YOUR GAME WITH MIDWICH

OUR EXPERTISE IS YOUR ADVANTAGE

GAMING IN THE UK

Video gaming in the UK is big business and, in fact, the UK is the world's largest video game market. In fact, according to the IFA, the UK is the world's largest video game market, with sales of over £1.5 billion in 2015, compared to £1.2 billion for the USA and £1.1 billion for Japan.

48% OF GAMERS IN THE UK PLAY ON A CONSOLE OR PC - ALL READY TO TAKE ADVANTAGE OF CUTTING-EDGE DISPLAY SOLUTIONS.

MONITORS FOR GAMING
CONSUMER TVS FOR GAMING
HOME CINEMA GAMING PROJECTORS
SAMSUNG COMMERCIAL TVS FOR GAMING

ENHANCING 4K GAMING

Whether your existing setup is a console or PC, the 4K resolution of the latest gaming PCs is a game-changer. It's not just about the resolution, it's about the clarity and detail that 4K offers. With 4K, you can see every detail of your game world, from the texture of a character's clothing to the individual blades of grass in a field.

THE 4K FUTURE

There's a lot of talk about the 4K future, but what does it mean for gamers? Well, it means that the next generation of gaming PCs will be able to take full advantage of the 4K resolution. This means that you can see every detail of your game world, from the texture of a character's clothing to the individual blades of grass in a field.

MONITORS FOR GAMING

With 2.2 billion gamers worldwide, the gaming industry is a multi-billion dollar market. And it's not just about the number of gamers, it's about the quality of the gaming experience. This is where Midwich comes in, with a range of cutting-edge display solutions that are designed to enhance your gaming experience.

28" Gold Phoenix 4K Monitor With Black Tuner Function
34" Curved Ultra Wide Full HD Monitor
24" Immersive Monitor

UNIVERSAL SMALL PLAT TV MOUNT 21" 32"
ERGO CHS 2014 GAS ARM SCREEN MOUNT
DARK MOUNT FOR LCD / LED / Plasma 24" 32" 40"

"24% OF GAMERS PLAY ON COMPUTERS. IN FACT, GAMING ON A PC IS AS POPULAR AS GAMING ON A CONSOLE."

"VIDEO GAMERS FOSTER THE MINDSET THAT ALLOWS CREATIVITY TO GROW."

TRANSFORMING THE GAMING EXPERIENCE - TODAY

Welcome to your Midwich guide to gaming. We've put together a list of the best gaming products from the world's leading manufacturers to help you get the most out of your gaming experience. From the latest 4K monitors to the most powerful gaming PCs, we've got you covered.

THE UK GAMES INDUSTRY WAS WORTH NEARLY \$4.2BN IN CONSUMER SPEND IN 2015, UP 7.4% FROM \$3.94BN IN 2014.

NOTEBOOK

John Boyega talks Bafta nominations, preparing a speech and why his awards will never end up in the toilet. Oh yeah, and...

*Are you bored of people talking to you about *The Force Awakens* yet?*

No! I mean it's all so much more relaxing than a few weeks ago, before the film came out, that's for sure.

It's broken box-office records. Lots of them. Your agent must be chuffed.

He is. I've always been his favourite client. Even now, when I'm bringing in the numbers.

How's everything changed for you since the film's release?

It's been great. I mean, at the moment I'm trying to schedule other projects and fit everything else I want to do around the next Star Wars movie. But now I'm just resting, and then we'll start prepping for Star Wars again soon.

What does it feel like to be constantly in the news? Your reactions, clothes, and anecdotes are always making headlines now.

I don't read stuff about me online, like specific tweets or anything, but when I hear about myself through word of mouth it's really cool. I love hearing people's response to my character, or appearances on things like *The Graham Norton Show*. Doing the press for *The Force Awakens* was so much fun.

Have you heard the fan speculation that Finn and Poe's relationship is more than just a bromance? What do you make of that?

Yeah, I've seen that. It's so not true. Oscar [Isaac] wishes it was though, it's all in his head. It's a brotherly love, a bromance, that's for sure.

Did any of your mates correctly guess the massive twist towards the end of the film?

No one guessed that ending.

INTERVIEW

"Finn and Poe more than a bromance? Oscar Isaac wishes"

*I was working with Emma Watson a lot and she is frickin' amazing. I can't wait for people to see the movie. It's going to be so great. I'd read the book before I was involved in the script so it's really exciting. And then I have another film, called *Imperial Dreams*, which will be coming out after all the Star Wars craziness.*

*In *The Circle* you play tech guru, Ty. Safe to say he's a lot different than Finn...*

Everything I've done in my career has been totally different. I don't think many people saw the kid from *Attack: The Block* ending up on Star Wars...

You've been nominated for the EE Bafta Rising Star Award. Have you decided where you'll put the award if you win?

Hmm, I'll put it in a glass cabinet.

A lot of award-winners display their prize in the loo.

Nah, you don't wanna put it in the toilet. Nobody will touch your award if it's been in the toilet for ages.

Have you got a speech prepared in case you win?

The concept of being nominated in the first place is something I'm still trying to settle in to. I'm not a 'prep a speech' kind of guy really, so I'll probably bottle it if I win.

Just don't do a 'Will Poulter' and start getting emotional...

Oh no. No... now I get why people don't want to even win these awards. Winning is too stressful. You have to say something. Maybe I'd rather just sit down and applaud.

Even if you don't win, you're basically in the biggest film ever.

[Laughs] And I already feel appreciated for being here. An award, even though it's such a great thing... I do still feel very, very appreciated by Bafta and the rest of the team.

Plus you're the only one who has been immortalised in 'Monopoly' form...

That's true! For now at least.

The EE Rising Star Award is the only Bafta voted for by the public. To vote go to ee.co.uk/bafta. We're offering a pair of tickets to the 2016 EE British Academy Film Awards ceremony, including goody bag and stay at a London hotel. Enter at ShortList.com

WWW.SHORTLIST.COM

Since the film came out, have any famous fans come out of the woodwork?

Not yet! But I haven't been doing much 'industry stuff' since the film came out so I haven't moved in those circles. The only famous fans I know of are the other guys who work on the film, and they know more than most people...

*Has anyone come up to you yet and said, 'Actually, I thought *The Force Awakens* was a bit rubbish'?*

[Laughs] I've heard

Whether it's a shoot-out, a sweepstake, a bake-off or a quiz, there are loads of ways you can get involved to help children around the world live happy, healthy, safe lives.

CHEF'S CHOICE

STARTER
SALAD AVEYRONNAISE

MAIN
CHICKEN A LA NORMANDE

DESSERT
CRÈME BRÛLÉE

Chicken a la Normande

INGREDIENTS

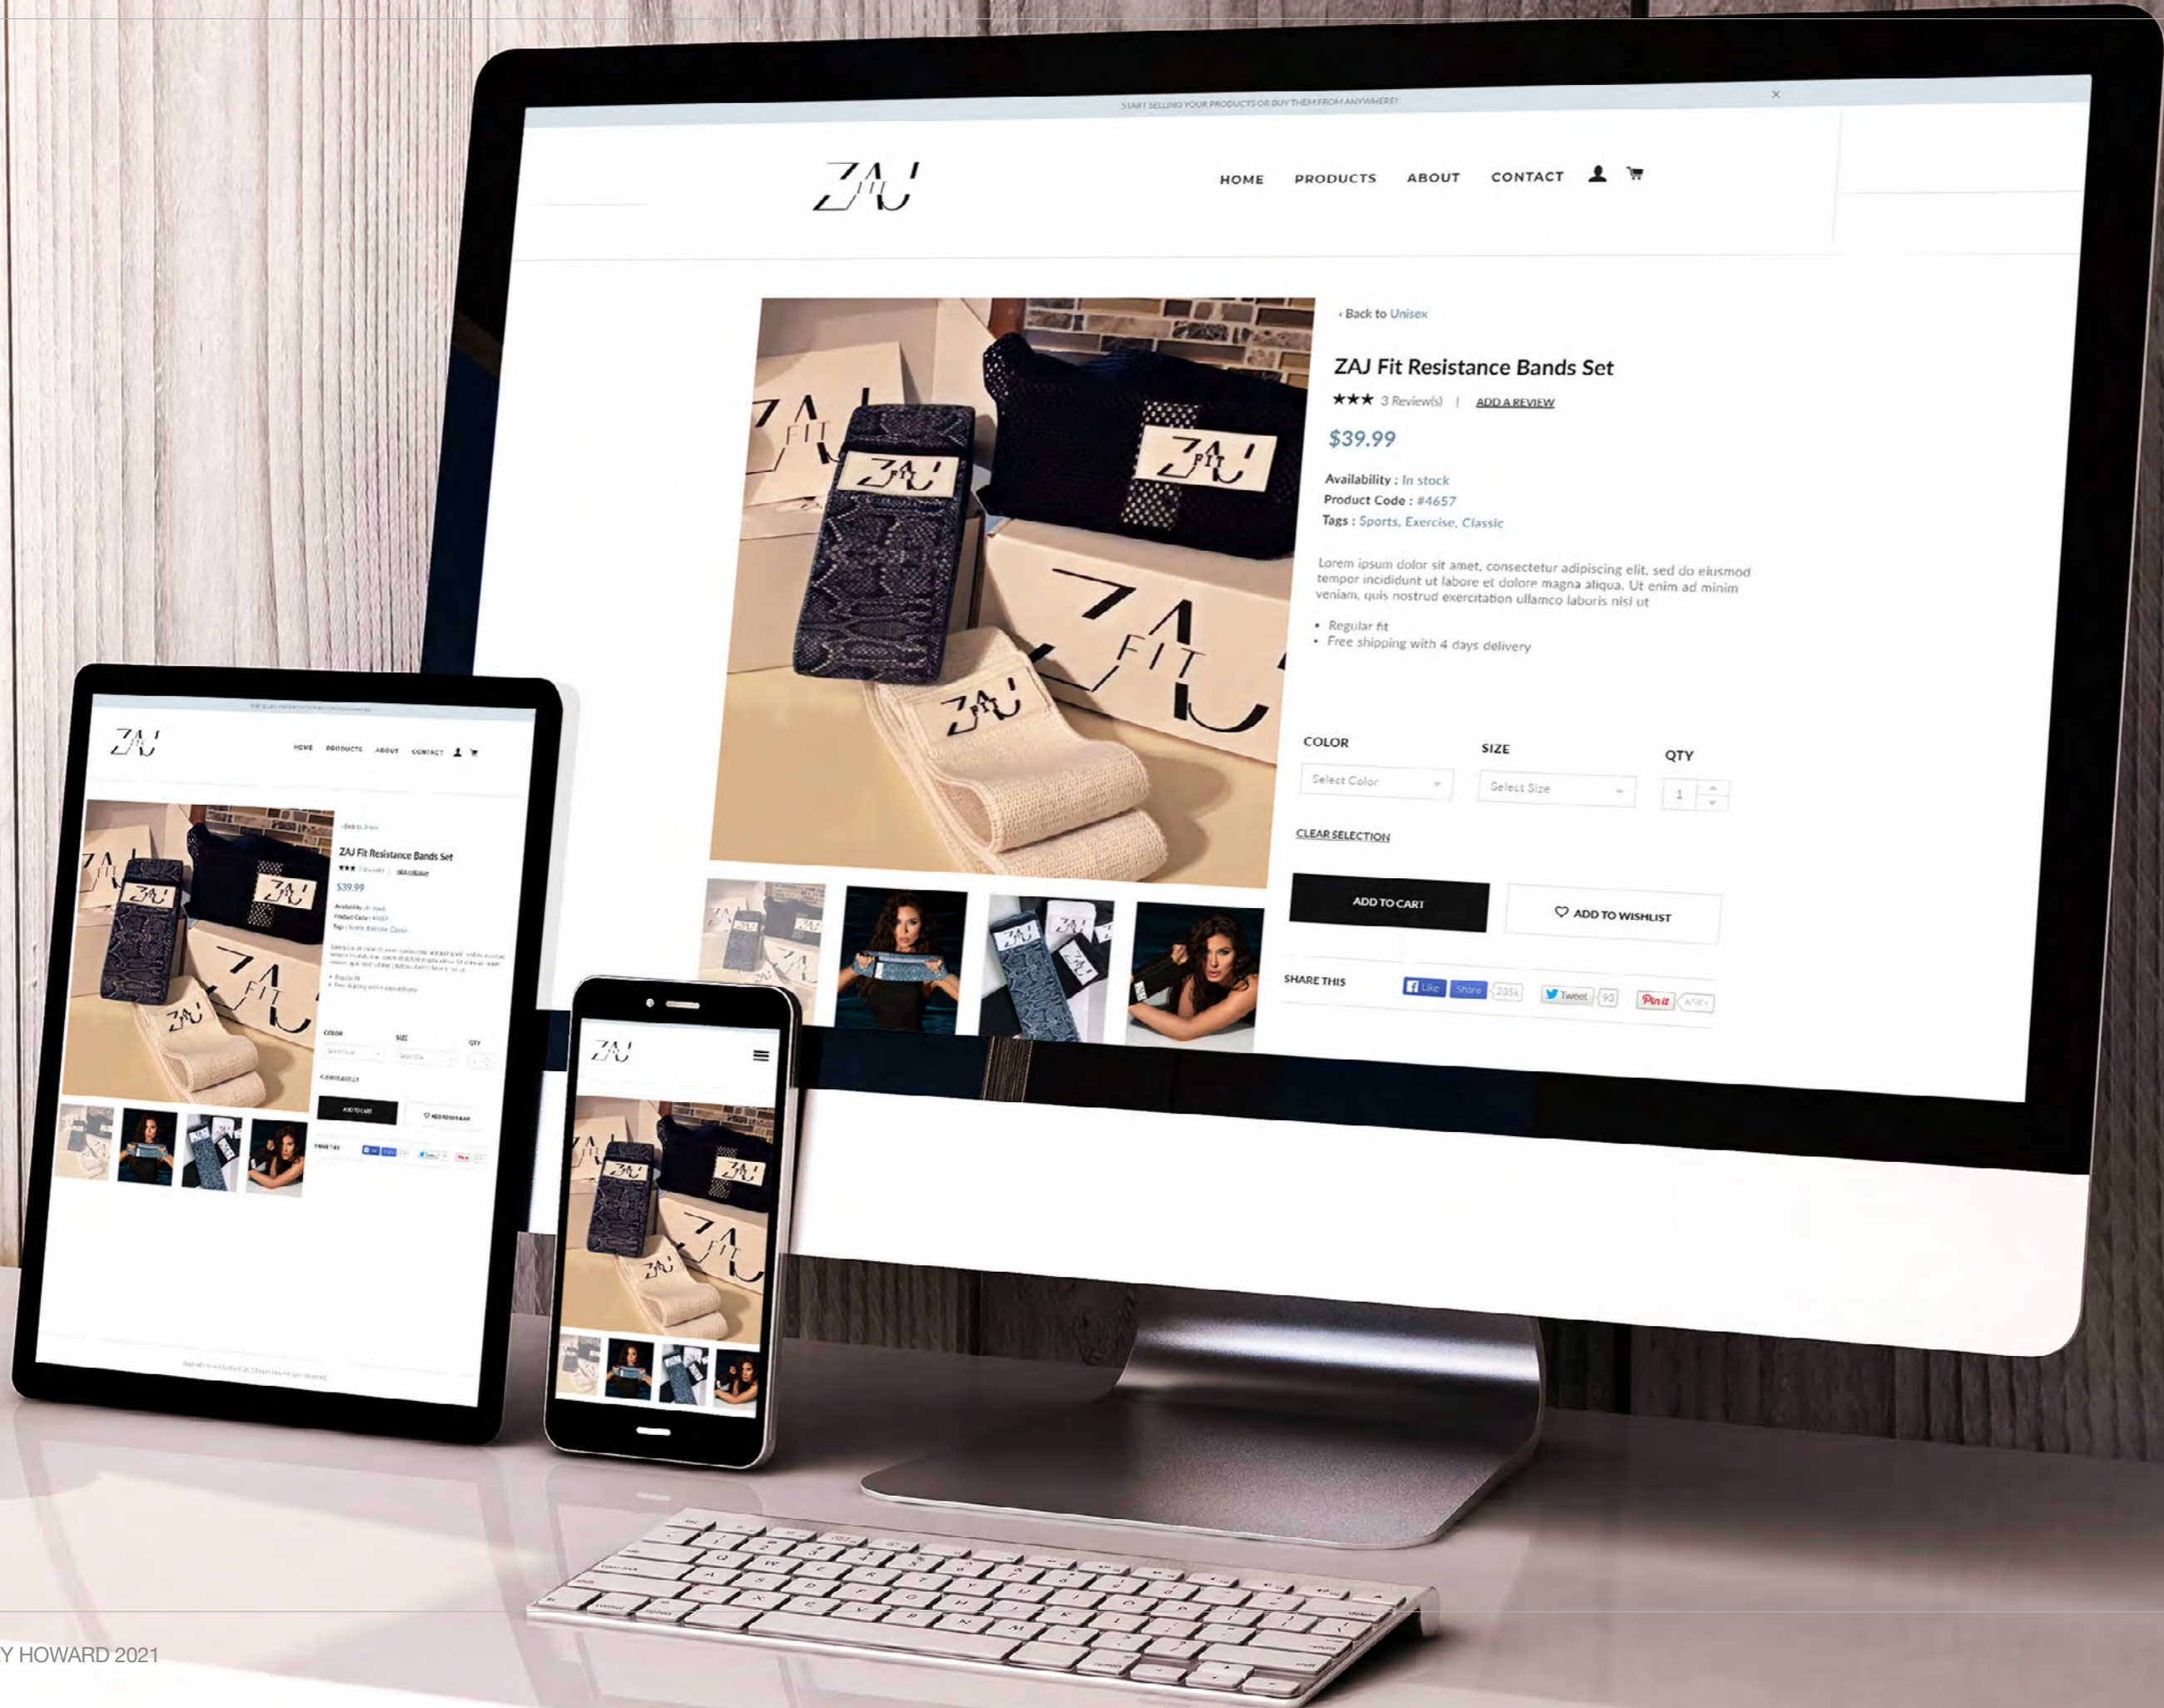

50g unsalted butter, chopped	300ml dry cider
1.8kg whole chicken, quartered (use kitchen scissors or poultry shears)	2 tsp caster sugar
100g streaky bacon, cut into 1cm strips	1 tsp lemon juice
2 onions, finely chopped	3 tsp Dijon mustard
3 Granny Smith apples, peeled, cut into 6 wedges	300ml double cream
	Micro parsley and mashed potato, to serve

METHOD

1. Preheat oven to 170°C.
2. Melt half the butter in a large flameproof casserole with a lid over medium heat. Season chicken and cook for 2 minutes each side or until evenly browned. Remove and set aside.
3. Add bacon and onion, and cook, stirring occasionally, for 6 minutes or until bacon is golden and onion is soft. Return chicken to casserole and add cider. Bring to the boil, then cover and roast for 1 hour 10 minutes or until chicken is cooked through.
4. In the final 10 minutes of roasting, melt remaining 25g butter in a frypan over medium-high heat. Add apple and sugar, and cook, turning occasionally, for 2-4 minutes or until apple is golden. Stir through lemon juice, then remove from heat and cover to keep warm.
5. Remove casserole from oven and turn off. Using a slotted spoon, transfer chicken to a baking tray and return to oven to keep warm. Place casserole over high heat and bring cooking juices to the boil. Reduce to a simmer and cook, stirring occasionally, for 10 minutes or until reduced slightly.
6. Add mustard and cream, and simmer, stirring occasionally, for 5 minutes or until sauce coats the back of a wooden spoon.
7. Transfer sauce to a serving dish, top with chicken and apple, and scatter with micro parsley. Serve with mashed potato.
